

## COVID-19 Guidelines for Studio Renters

- Renters should sanitize hands immediately after entering the building
- Renters and family members/guests must follow Rising Tide's safety plan protocols
- Renters and family members/guests should not enter if you, or a family member, have a fever, chills, cough, shortness of breath, sore throat, or other COVID-19 symptoms.
- A maximum of two dancers for children and competitive dancers can rent the studio at the same time, a maximum of four adult dancers can rent the studio at the same time
- Renters may bring people within their 'bubble' to rental sessions. However, we're trying to minimize the number of people coming in and out of the studio, so please be considerate about the number non-dancers joining you during your rental
- All renters and guests who are not in the same family bubble must maintain physical distancing at all times
- Cleaning supplies are on the tea station. Before leaving please wipe down any surfaces you touched including door handles, the speaker, and any chairs or stools used
- When wiping down the speaker please use a disinfectant wipe or spray the liquid disinfectant into a paper towel and then wipe it down (rather than spraying directly onto the speaker)
- Do not use the Change Room
- Do not enter the Coach's Room
- Do not use the Coach's Station in the studio except to access the speaker
- Renters may exit using the front door
